Recruitment Guideline for the Post of Malaria Technical Supervisor

1. Malaria Technical Supervisor (MTS)

Purpose:

To strengthen supportive supervision and micro-monitoring for malaria prevention and control at sub district level in malaria endemic districts.

Responsibilities:

Each malaria supervisor will be covering a population of around 2.5 lakhs (usually 2 blocks) in endemic districts or specified by State/District as per requirement. The area covered by MTS will be called the Malaria unit (MU). Specifically, the MTS will

- 1. support malaria prevention and control operations in the designated blocks in close liaison with respective Block Medical Officers and district VBD/malaria officer;
- 2. visit all the PHCs (block and additional) and designated microscopy centers in the MU at least once every fortnight, sentinel centers once a month, and sub centers and 10% of remote villages once every two months;

3. *Malaria Case management:*

- 1. Review the quality of malaria case management services during the field visits to ensure that the slides collected are being submitted to the designated microscopy centre and results are being conveyed back to concerned Health workers in time for early initiation of effective treatment as per the program service standards. Promptly bring to the notice of concerned BMO any delays or poor quality of treatment.
- 2. Visit at least 2 randomly selected villages in each sub-centre selected to validate and assess the quality of malaria control services being provided by community based workers (ASHAs/AWWs etc) through checking the records and validating them by interacting with the community by visiting at least 2 malaria cases diagnosed and treated by ASHAs, review the storage practices of RDKs, identify deficiencies of these workers and provide on-the-job training.
- 3. Monitor and ensure rational use of ACT and RD Kits as per the program guidelines.

4. *Vector Control:*

- 1. Assist the DVBDSCO & BMO in the development of Micro plan for IRS and would supervise the quality and coverage of IRS rounds as desired by the DVBDSCO & BMO.
- 2. Network with the village Health & sanitation committee, to help it plan breeding source reduction activities. The MTS would participate in any advocacy event or camps organized in the MU and undertake activities to promote breeding source reduction.

- 5. Work closely with DVBDSCO/DMO to ensure availability of adequate supply of malaria commodities (RDKs, pharmaceuticals, insecticides, Insecticide treated

bed nets, lab consumables, registers and reporting formats) at all points of service delivery.

6. Check up to date maintenance of records and ensure timely submission of reports. The overall responsibility of records and reports however, will be of the BMO.

For effectively undertaking the above tasks in the malaria unit, the MTS would be provided with a motorcycle & POL expenses.

Qualification and Experience:

- He/She should be a Graduate from the Biology stream. In areas where a candidate with the desired qualification is not available, a Graduate with Science subject in class XI and XII will be considered.
- The candidate should have a valid two wheeler driving license.
- The candidate should be preferably from the same district for the post he applies.
- Experienced candidate in malaria and other vector borne disease control programme shall be given preference. The job of MTS will support programme implementation & malaria control activities in the block/sub-centre. The MTS will stay at Block Hqr and report to Block MO/DMO/VBD Consultant. The appointment of MTS will be on contract basis, extendable each contract period on performance basis during the project period.

Nature of appointment:

The appointment of the MTS will be on contract basis initially for a period of 11 month/as per NRHM norm (subject to satisfactory performance) and extendable further years on basis of performance, in the Project period.

Reporting:

The over all I/c of the MTS would be the DVBD/DMO. The MTS will stay at the Block-Head quarters and report to the Block MO on a regular basis. In case the monitoring unit (MU) includes 2 Blocks, one block will be designated as Headquarters block.

Age:

Should not be above 40 years and ready to travel extensively.

Salary and other entitlement :

As per PIP

Other Entitlement:

Leave : Annual leave to be accrued for one year: 30 days per annum (2½ days per month)
Sick Leave : 10 days per annum

Maternity leave equal to 60 days half pay leave.

The leave remaining unutilized at the end of the contract shall not be en-cashed.

Travel: TA/DA as per NRHM/NVBDCP rules

Recession:

Either party can terminate the contract at any time giving one month notice in writing.

Deliverables:

1. Monthly advance tour program by 7th of following month and obtain approval of the DVBDPC/MO officer.
2. Supervisory Checklist for each month to the DVBDPCO/DMO & BMO.
3. Maintain monitoring register, tour diary, Vehicle log Book and route maps.

Selection:

- Selection of the MTS will be done at the district level.
- A selection committee will be formulated under the Chairmanship of the District Collector/collector's nominee with other members.
- Other members in the committee will be
 1. CDMO
 2. DMO
 3. VBD Consultant (wherever present)
 4. DPM (NRHM)
 5. One state NVBDCP representative
- Selection procedure for recruitment of MTS will consists of
 1. Written cum Computer test in MS office
 2. Personal Interview
- The vacancy would be widely advertised in the leading news papers to get the best available skills in the market.
- In tribal blocks, preference would be given to local candidates who belong to ST category.

Training:

- The MTS would be trained on the technical and supervisory aspects of Malaria prevention and control. Modules for the training will be developed. A 10 days induction training to be imparted including extensive visits.
- Three day annual reorientation training will also be provided to enhance the skills found to be specifically deficient.

7. Date of Interview – 19.05.2016 at 9.30 AM at CDMO, Angul Conference Hall.
